COM-T VOLUNTEER

Terry Matsunaga, PhD participated in a COM-T video to promote the importance of MMI Evaluators. He also volunteers in this capacity!

A screenshot of a Facebook post from the 'Everyone at UA College of Medicine - Tucson' group. The post is by Megan Sorenson, dated July 25 at 3:29 PM. The text of the post reads: 'Interested in selecting the next generation of physicians? The College of Medicine - Tucson Office of Admissions is recruiting MMI Evaluators for the upcoming cycle! Please contact the Admissions office for more information at admissions@medicine.arizona.edu.' Below the text is a video player showing Terry Matsunaga, PhD, speaking. The video player has a title 'Terry Matsunaga, PhD' and a subtitle 'Professor, Department of Medical Imaging'. Below the video player, the post shows engagement metrics: 'You and 7 others' liked, '1 Comment', '1 Share', and 'Seen by 108'. At the bottom, there is a comment from Jennifer Fischahs: 'We are so proud of Terry Matsunaga - esteemed Department of Medical Imaging Professor and Researcher - featured here as an MMI Evaluator!'.

CONGRATULATIONS

Dr. Jennifer Becker

COLLEGE OF MEDICINE TUCSON

Neurology

Recently, the Dean's office endorsed the recommendation that Dr. Becker receive a joint appointment at the rank of Assistant Professor, Department of Neurology.

RESEARCH DIVISION

Our Role The Research Division at the UA Department of Medical Imaging is renowned for pioneering work in Medical Imaging Technology and Imaging Science. We work with clinicians, students and industry partners to accelerate the translation of imaging discoveries into processes that improve human health. We aim to alleviate suffering caused by disease.

RESEARCH BROCHURE HIGHLIGHTS

CURRENT APPLICATIONS

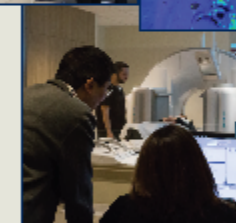

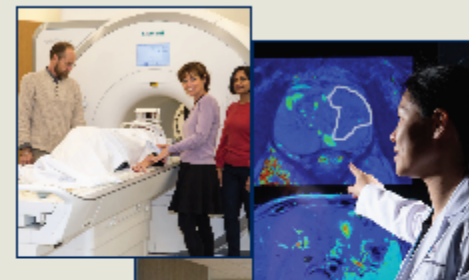

➤ Treatment advancement for heart disease, cancer, stroke, Alzheimer's and Parkinson's disease

➤ Boundless collaboration to improve patient care

➤ Research for early detection, staging and treatment of cancer anywhere in the human body

RESEARCH MEANS HOPE

Research at the UA Department of Medical Imaging brings together all stages of research from fundamental discovery science all the way to diagnostics and imaging guided therapies. Our team science approach allows discoveries to be rapidly and efficiently translated for clinical use. We strive to improve human health.
